

Girls! Beautify Your Hair and Stop Dandruff

Hair becomes charming, wavy, lustrous and thick in few moments.

Every bit of dandruff disappears and hair stops coming out.

For 25 cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant, and appears as soft, lustrous and charming as a young girl's after applying some Danderine. Also try this: Moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt, or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes, but really new hair—growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25-cent bottle of Knowledge's Danderine from any drug store or toilet counter and just try it.—Advt.

Obtain New Life by Taking **Howells' Lymphine Tablets**. Restores lost nerve force, creating new life. SUFFRAGETTE SAYS SHE DIDN'T URGE BOYCOTT OF LOAN

With one son in the army and another in the navy, Mrs. Abby Scott Baker, press chairman of the National Woman's Party, today indignantly denied reports from Baltimore that she had urged Baltimore suffragettes, at a meeting there last night, to boycott the Liberty loan.

"That is absolutely untrue," said Mrs. Baker today. "I did not mention the loan in my speech. On the contrary, I hope the Liberty loan will be an overwhelming success, and I expect it to be."

"What I did say was that I believed if the women of the United States were to 'strike' on all war work, they would find the Federal amendment in their stockings by morning. I did not advocate, however, such a plan."

"I have one son, Assistant Naval Constructor R. S. N. Baker, in the navy. I have another son, First Lieutenant Henry Scott Baker, in the army, and a third son, Jimmie Baker, has been rejected by the army twice for a minor defect when he tried to enlist."

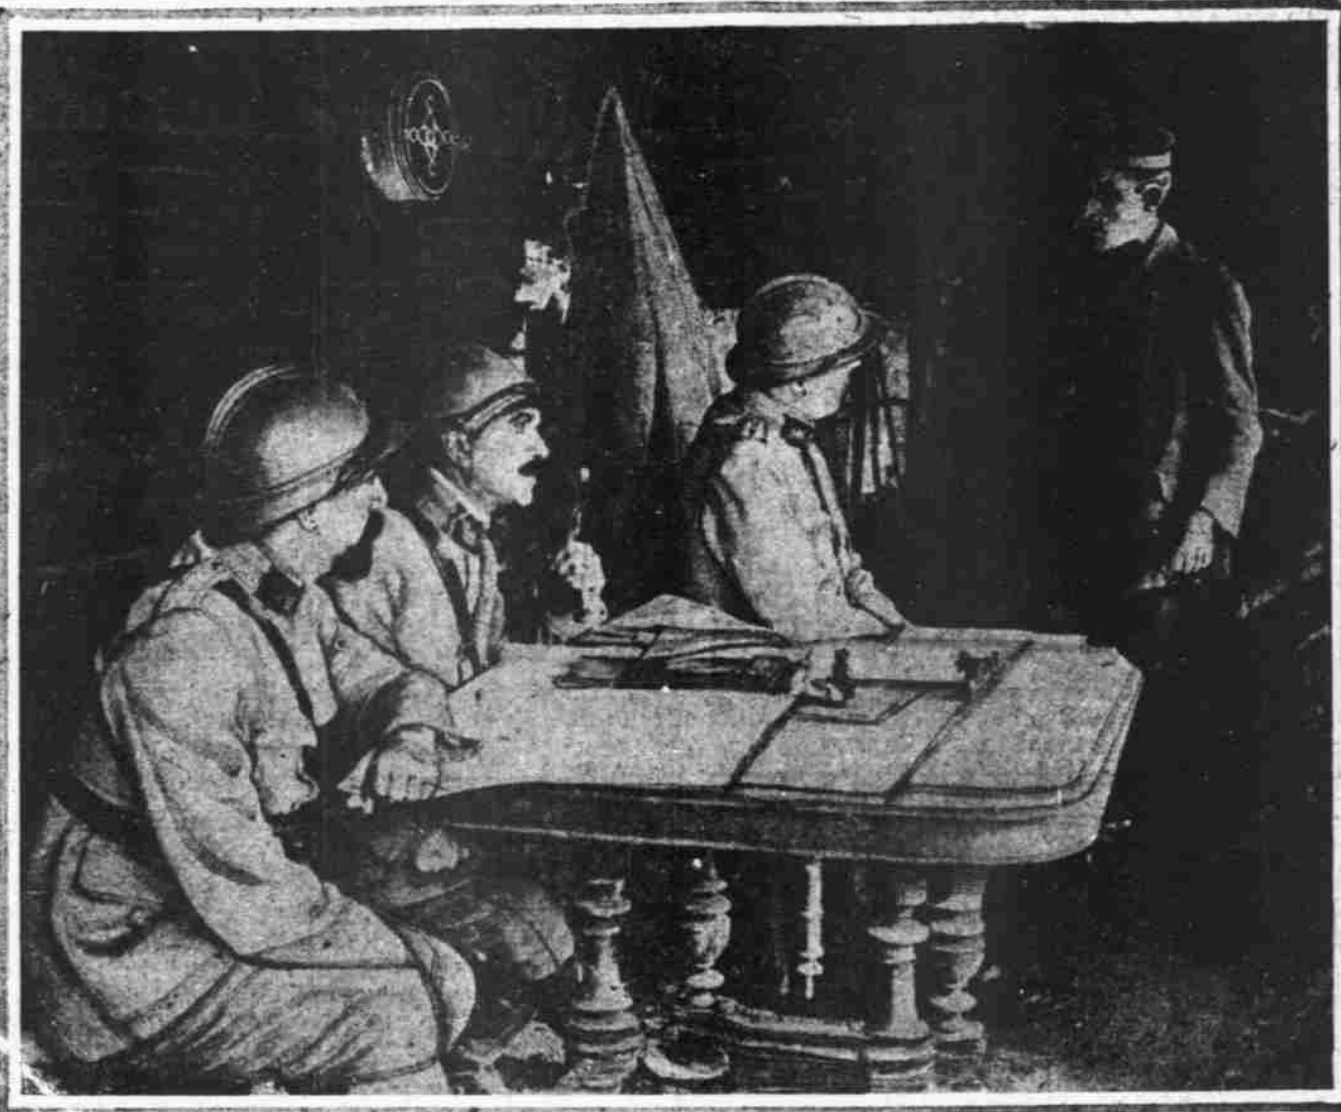

Mrs. Baker also denied that Mrs. Henry O. Havemeyer, of New York, another prominent suffragette, had appealed to suffragettes not to aid the new loan.

"Mrs. Havemeyer told the women," said Mrs. Baker, "that she had declined to help with the Liberty loan because she considered herself ineligible so long as she lacked the rights of suffrage, and that she could not ask the women of America to contribute to the loan so long as suffrage was denied them."

Miss Alice Paul, executive chairman of the party, said that organization was unable, because of its constitution, to support or fight any cause other than suffrage. "We leave all that to our individual members," said Miss Paul.

SOUTHERN RAILWAY LOSES.
For every dollar paid to the Southern Railway Company by the people in the South during August, 1917, the Southern railway paid out in the South \$1.28, according to figures announced today by Comptroller A. H. Plant.

Putting a Boche Prisoner Through the "Third Degree"

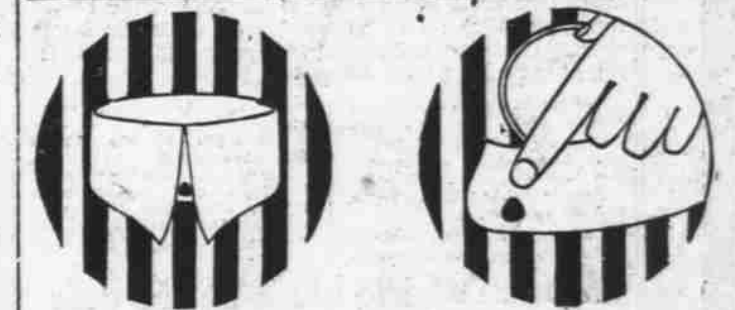

French officers are shown in the above official photograph questioning a German prisoner of war. The officers in the above picture still wear their steel helmets, just as they have come in from the trenches.

GERMANS ASK PEACE WITHOUT ANNEXATION

COPENHAGEN, Oct. 3.—A monster demonstration in favor of a peace without annexations was held on Sunday at Frankfort-on-the-Main. Leaders in the clerical, radical and socialist parties sponsored the demonstration. The crowd numbered 40,000 or 50,000.

TO PUT OCCOQUAN INQUIRY UP TO DISTRICT HEADS

The District Board of Charities is getting ready to put the matter of conditions at the Occoquan, Va., workhouse up to the District Commissioners, according to the latest word from the board.

George S. Wilson, secretary of the board, said that there would be no further dealings with Malone or his associates on the part of the board, despite Malone's statement that he had been assured that the present secret inquiry was merely to determine whether a real hearing would be held later on the matter.

GAYETY ACTRESS PLANS DEVICE FOR TRIP TO THE MOON

A trip to the moon or thereabouts in a "sphere" made by her own hands is the plan today of Miss Jean Irwin, prima donna of the "Broadway Frigate" company, playing at the Gayety Theater this week. Miss Irwin, an ardent student of chemistry and astronomy, is busy during her minutes off stage with an invention that she hopes will revolutionize the art of flying.

An expert aviator, the pretty prima donna is hopeful that before the war is ended her invention will have been proved of profit to the government. It was two years ago that she first hit upon the idea of constructing a "sphere," with which to travel above the clouds and into infinite space.

The "sphere" that Miss Irwin is trying to invent today will be of glass, shaped somewhat like a balloon, twelve feet in height, and with a thick rubber bottom, so that an unexpected jolt against a planet will not injure the occupants.

"The idea may sound absurd," declared Miss Irwin today, "but there is no reason why it cannot be put into effect."

"The sphere" may be a bit unusual in flying, but last year when I was flying with an army aviator at Dubuque, Iowa, the idea occurred to me that an air carriage with transparent sides, would be just the thing for a trip to the moon.

"Do you plan to fly to the moon alone?" she was asked.

"Well, as to that I can't say, but possibly I shall take a girl friend along," was her reply. "Women, you know, are not afraid of an experiment of this kind."

Miss Irwin plans to furnish the power for the "sphere" from a combination of powerful acids which will cause combustion. A strong container, many inches thick, of solid steel, she thinks, would be sufficiently strong to hold in check the power of the combustion, which the prima donna believes will be strong enough to raise the glass "sphere" from the earth.

But the writer must be careful not to give away too many features of Miss Irwin's secret. It will suffice to say that she hopes the invention will materialize before the end of the year.

OCT. 22-27 DESIGNATED 'POTATO WEEK' IN U. S.

October 22 to 27 will be potato week throughout the United States. The Department of Agriculture is urging a national campaign for the eating of potatoes during this week to conserve the wheat supply and to acquaint the people with the great variety of ways in which potatoes may be used on the table.

Old Folks Need "Cascarets" For Liver, Bowels

Salts, calomel, pills act on bowels like pepper acts in nostrils.

Enjoy life! Don't stay bilious, sick-headachy, and constipated.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty. Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store.—Advt.

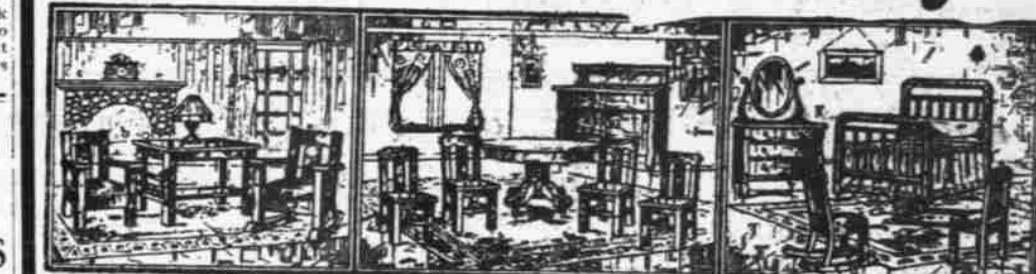

A Sensitive Society Subject

Tidbit and hygiene cleanliness is a subject of much interest to the scientific, social and literary world. It deserves the attention it is receiving, and a great deal more, because upon a better understanding of its value rests the comfort and longevity of the human race. The way to obtain and retain it is, of course, to keep clean, and to do this from a toilet and hygienic standpoint there is nothing more suitable than Tyree's Antiseptic Powder. The nature of the composition of this article makes it an almost indispensable adjunct to the toilet of every careful woman and man who appreciates the value and comfort of hygienic cleanliness. Tyree's Antiseptic Powder has a large and growing number of friends in the scientific, social, and literary world. In addition when used for diseases of moderate nature. It is sold in original packages only at 25, 50 and 75 cents by all druggists, or the manufacturers.

Tyree's Powder does not stain, possesses no odor and is recommended by a most delightful sensation. Being hygienic, its employment is not opposed by patients of moderate nature. It is sold in original packages only at 25, 50 and 75 cents by all druggists, or the manufacturers.

J. S. TYREE, Chemist, Inc., Washington, D. C.
